Synthetic demonstration data. All parties and values are fictional.

1. OFFER

We are pleased to offer for the above package on the basis of the documents issued with your enquiry.

Item	Value
Tender sum (excluding VAT)	EUR 4,650,030
Currency	EUR
Programme, instruction to completion	40 weeks
Validity	90 days from the date of this offer
Form of subcontract	YSE 1998, subject to section 4 below

2. INCLUSIONS

- Aspirating smoke detection to white space and addressable detection elsewhere
- Gaseous or water-mist suppression to the data halls, subject to fire engineering approval by the authority
- Sprinklers and dry risers to ancillary areas
- BMS with BACnet/IP open protocol and DCIM reporting
- Access control (five layers), CCTV with 90-day retention
- Structured cabling, meet-me room and containment

3. EXCLUSIONS

The following are **excluded** from our tender sum:

- Data hall suppression system excluded
- Fire engineering approval support excluded

4. QUALIFICATIONS

- Assumes sprinklers throughout, including white space; this conflicts with the Employer's Requirements
- DCIM licences quoted for 3 years only

5. EXCEPTIONS TO THE FLOW-DOWN TERMS

Item	Our position	Note
Payment	21 days	Main contract pays us at 45 days
Liability cap	5% of subcontract sum	Material gap
Defects period	12 months	Main contract is 24 months

6. PROGRAMME AND LEAD TIMES

We require **40 weeks** from instruction to completion of our works, sequenced to suit your sectional completion dates.

Long-lead items are stated in our qualifications above where relevant.

7. SIGNATURE

For and on behalf of Turva ICT Oy

Signed: Date: 19 March 2026

Note: this offer contains exclusions. Please refer to section 3 when comparing it with other returns.
